

Information

Our mortuary racking offers versatile, practical, and durable solutions tailored to a wide range of operational needs. It is also modular so further racks can be added. Bespoke configurations are also available to meet specific requirements.

Designed with space efficiency in mind, each unit is precision-engineered to maximise capacity while ensuring ease of use. Constructed from high-quality stainless steel, they are built to last.

Hygiene is paramount—removable rollers allow for straightforward cleaning and maintenance, supporting rigorous sanitation standards in demanding environments.

Also available with wheels to create a mobile racking system. The racking is a modular design and can be extended to suit your space.

Specifications

Length	202cm
Width	75cm
